DONATE to the revolution... DONATE to the future!

The fascists are on the march, the planet is burning, murder by police continues unabated, the right to abortion hangs by a thread...

“It is a hard but basic truth: For the masses of people, and ultimately for humanity as a whole, there is no future, or no future worth living, under this system.

“But there is a way to a world and a future that is worth living, and is worth fighting for right now: **revolution**—a *real revolution*, not playing around with a few changes that leave this system in place and in power, while benefitting only a small number.”

– from The Declaration from the revcoms,
A Call to Get Organized Now for a Real Revolution

Los Angeles, June 12

Fundamental, *radical*, change is necessary, it is possible and there is a force working urgently to build up the forces to make this revolution – the National Tour to Get Organized for an ACTUAL Revolution, **but this will not have the necessary impact without your financial support.**

Contribute to the future, contribute to the *National Tour to Get Organized for an ACTUAL Revolution*. A force – on the ground in Los Angeles and anchoring a national movement for revolution – that is working to grow and to spread, going up against all the ways this system has people fighting each other, doing for self, or caught up in band-aid reforms that will go nowhere and worse... a force that is not tailing after whatever is popular, repeating the lies we are constantly told by the people in power and their mouthpieces in the media and elsewhere. A force that is bringing people the hard but liberating truth and organizing forces now for a real revolution.

Not nearly enough people know about this revolution and are with it. We need to urgently change this, we need to get this revolution, and its leadership, known everywhere. We need to challenge and seriously struggle with people to organize them into this revolution. **The National Revolution Tour is working on this, making beginning but serious advances, but it needs support and major funds** – to print materials, for transportation, advertising, support for the frontline revolutionary fighters on the National Tour, to run the revcom.us website and to produce the weekly youtube show, *The RNL – Revolution Nothing Less – Show* which are providing national leadership and guidance for this revolution.

The Declaration and Call analyzes that: “Revolutions are not possible all the time, but are generally possible only in rare times and circumstances, especially in a powerful country like this. **This is one of those rare times and circumstances.** *This system is in real trouble, caught up in crisis and conflicts for which it has no easy or lasting solutions. Throughout this country the workings of this system have given rise to deep divisions which cannot be resolved under this system. Society is being ripped apart.*

*“Those who rule are locked in a bitter fight among themselves, and they cannot hold things together in the way they have in the past. Although there are a lot of bad things connected with this and it could lead to something really terrible, it is also possible that we could wrench something really positive out of it—**revolution, to put an end to this system and bring something much better into being.**”*

There is the leadership for this in Bob Avakian (BA) – the architect of a whole new framework for the liberation of all oppressed people and the emancipation of all humanity. There is a strategy for making this revolution. BA has even written a Constitution that concretely maps out what to do starting right after the seizure of power, so we can actually work on building up a whole new emancipating society.

What would you give for there to be a future worth living in? A future for humanity and the diverse ecosystems on the planet? A future for the youth – the millions of youth in this country and all over the world? What would you give to see, in this rare time, a revolutionary force of thousands emerging, with many times that beginning to follow? **There is hope for that future – in the revolution to bring into being a whole better world and the work now to make that revolution real. There is nothing more important to contribute to than this future.**

All across the country, from July 12 – 18 and going forward from there, we’re coming together to raise funds – people like you and people very different from you – all coming together to be part of something bigger than ourselves. Through collective change jars, asking our friends and family, knocking on doors, neighborhood car washes, covid-safe backyard parties, tamale sales, bake sales and getting with people who can give larger contributions to match the community efforts.
What can you give? What are your ideas?
