

\$100,000 to Put REAL Revolution on the Map in 2023

DONATE—Join the Livestream — Help Meet the Goal!

Sunday, Feb 19 • 5 pm Eastern, 4 pm Central, 2 pm Pacific • [YouTube.com/TheRevComs](https://www.youtube.com/TheRevComs)

Climate destruction... the threat of nuclear war... police murder of Black and Brown people... patriarchal violence... inhuman attacks on immigrants... **If you care — and you do: There is the possibility of wrenching a positive emancipating future out of the existential crises, the madness of today. At a time when revolution really could be possible.**

We are determined to put revolution on the map in this country in 2023 in a way it has not been for a long, long time, if ever.

In his three interviews on *The RNL—Revolution, Nothing Less!*—Show, the revolutionary leader Bob Avakian (BA), makes the case for why the times themselves cry out for revolution. BA breaks

down what the revolution is all about, and why and

how it is possible. In the interviews, people get to know this leader, and BA tells how he came to recognize and fill a great need—charting a course for a real revolution here in the most powerful country in history and developing a new framework for the emancipation of humanity which we call the new communism.

What could be more important than to donate to a movement for revolution which aims to bring about a whole new world without exploitation or oppression of any kind?

Your donation will:

- ▶ **Promote the Bob Avakian Interviews on *The RNL Show* (voice of the Revcoms) opening a doorway into the revolution for thousands, potentially millions. Expand the audience of *The RNL Show*.**
- ▶ **Produce the website revcom.us, where you get unique analysis of major events and trends, learn about the revolution and how to be part of it, and find the major works of Bob Avakian.**
- ▶ **Support the revolutionary leaders and committed young revolutionaries in Los Angeles who are developing a model of putting revolution on the map that can be replicated and grow nationally.**

In a Time When the Future Hangs in the Balance

When Solutions Offered End Up with the Horrors Going On and On...

There Is Hope, and a Roadmap to the Emancipation of Humanity

Why People Are Donating...

And Why You Should Too!

Mother of teenager murdered by Chicago police

“As long as they keep killing our kids, we have to keep fighting. We can’t give up. We have to raise money because without the revolutionary club there is no one there to fight for us.”

In response to a physician's 5 for \$500 letter and challenge I say, Count Me In!

“I am adding my \$500 to the cause and also calling on all healthcare professionals (and others) to learn about BA, to really think about how each of us can help create a new world, to check out these RNL Interviews and study the works of BA, and to join in this movement for a real revolution now.”

Shekib Mosadeq, revolutionary internationalist artist from Afghanistan

“Bob Avakian is someone who doesn't let people's attention get diverted from the widespread and continual crimes of the capitalist system. He scientifically shows that an oppressor in any shape or form—whether it is the Islamic Republic rulers or the Taliban or the US, the Russian or the Chinese imperialists—the shape doesn't matter. They're all products of the capitalist system.”

Professor of Chicano Studies

“I am donating because the work that Bob Avakian and the revcoms are doing in scientifically analyzing our current oppressive conditions is important and needs to be put center stage of discussions about what is happening in this country and this world.”

Revcom.us

@TheRevcoms

84-Years-Young Salvadoran-American Activist

“I’m giving \$325 because you revolutionaries care for humanity and are the only organization that wants to see the emancipation of humanity.... I’m giving today because Bob Avakian talks about ending all this oppression with a revolution. Bob Avakian talks about a new world, his vision is emancipating.”

A donor

“I made a donation for the fund drive to publicize the BA Interviews on The RNL—Revolution, Nothing Less!—Show.... If people are really being honest with themselves, the situation IS dire, but there are real possibilities to change things if we want a better future for humanity, the planet and future generations.”
