***DONATE***

Enable others to read this too. Be part of bringing into being and spreading a movement that actually aims for REVOLUTION—NOTHING LESS! A *real* revolution aimed at the emancipation of humanity from exploitation, from all forms of oppression, from the destruction of the environment, and from all antagonistic relations between people.

Donating funds — and raising funds from others — is a critical way to support this movement, to “*become part of this emancipating revolution*” while you are learning more.
